

# RESIST

Retaining Students in School Together

[www.resist-project.eu](http://www.resist-project.eu)

## VET and SME cooperation

The RESIST project directly confronts the lack of cooperation between **VET colleges and SMEs**.

The RESIST consortium offers you a **manual** as a hands-on approach to student drop-out prevention through **SME involvement**.

We encourage every VET college in Europe to use this manual to get a clear view on how to organise a series of events where the **Business World** can truly connect with **Vocational Education**. These events can be organised in many different forms, we will provide you with some concrete guidelines.

The manual is **available for download** in **6 languages** (English, German, Spanish, Dutch, Polish, Finnish) through the project website [www.resist-project.eu](http://www.resist-project.eu). The manual is supported by handy templates and checklists, also available through the website.

### Project leader:

Business Development Friesland (BDF)

### Contact person:

Frank Hiddink – [f.hiddink@bdfriesland.nl](mailto:f.hiddink@bdfriesland.nl)

### Project partners:

AOC Friesland (NL)  
Junta de Extremadura (ES)  
BFW Bildung (DE)  
Salpaus (FI)  
Transfer (PL)
